

CUSTOMER FIRST

- + Future Fibres has developed an industry leading, global service support infrastructure to provide the highest levels of customer service and ensure its clients maximise the cost effectiveness, longevity and performance of their rigging.

PROGRAMME

- + All inspections, servicing, refits and repairs are carried out to the company's exacting standards whilst minimising disruption to a clients sailing schedule.
 - + Detailed testing programme to monitor performance against original specification.
 - + Future Fibres is able to accurately predict timetables for service and replacement.
- 

WORLDWIDE SUPPORT

- + Future Fibres has 7 dedicated service centers placed in all corners of the globe.
 - + Recently launched new HQ service center in Valencia.
